- 1. the conditions summarised in the report; and**
- 2. the following additional informative:**

**“that no building work commence until details of any drainage issues have been clarified with the relevant authority.”**

(During consideration of this matter, and in light of evidence noted in the report of past local surface water flooding and drainage issues, Members considered it prudent to add an informative that no building work should commence until details of any drainage issues have been clarified with the relevant authority, as detailed in the resolution above. It was noted from both the report and Officer advice given at the meeting that separate Building Regulations,

which did not fall within the Council's remit, required that adequate provision should be made for rainwater to be carried from the roof of the building. It was therefore inappropriate for a drainage condition to be attached to the application as Building Control Officers would not permit the proposed development to proceed if there were found to be any relevant drainage issues.)
