1 Policy Statement

Redditch Borough Council will ensure all users of Council provided internet facilities are aware of the acceptable use of such facilities.

2 Purpose

This policy document tells you how you should use your Council Internet facility. It outlines your personal responsibilities and informs what you must and must not do.

The Internet facility is made available for the business purposes of the Council. A certain amount of personal use is permitted in accordance with the statements contained within this Policy.

It is recognised that it is impossible to define precise rules covering all Internet activities available and adherence should be undertaken within the spirit of the policy to ensure productive use of the facility is made.

This policy replaces all locally agreed Internet usage policies.

3 Scope

This Internet Acceptable Usage Policy applies to, but is not limited to, all Redditch Borough Council Councillors, Committees, Departments, Partners, Employees of the Council, contractual third parties and agents of the Council who access the Councils Internet service and IT equipment.

4 Definition

This Internet Acceptable Usage Policy should be applied at all times whenever using the Council provided Internet facility. This includes access via any access device including a desktop computer or a smartphone device.

5 Risks

Redditch Borough Council recognises that there are risks associated with users accessing and handling information in order to conduct official Council business.

This policy aims to mitigate the following risks:

- The non-reporting of information security incidents, inadequate destruction of data, the loss of direct control of user access to information systems and facilities etc.

Non-compliance with this policy could have a significant effect on the efficient operation of the Council and may result in financial loss and an inability to provide necessary services to our customers.

6 Applying the Policy

6.1 What is the Purpose of Providing the Internet Service?

The Internet service is primarily provided to give Council employees and Councillors:

- Access to information that is pertinent to fulfilling the Council's business obligations.
- The capability to post updates to Council owned and/or maintained web sites.
- An electronic commerce facility.

6.2 What You Should Use Your Council Internet For

Your Council Internet should be used in accordance with this policy to access anything in pursuance of your work including:

- Access to and/or provision of information.
- Research.
- Electronic commerce

6.3 Personal Use of the Council's Internet Service

At the discretion of your line manager, and provided it does not interfere with your work, the Council permits personal use of the Internet in your own time (for example during your lunch-break).

The Council is not, however, responsible for any personal transactions you enter into - for example in respect of the quality, delivery or loss of items ordered. You must accept responsibility for, and keep the Council protected against, any claims, damages, losses or the like which might arise from your transaction - for example in relation to payment for the items or any personal injury or damage to property they might cause.

If you purchase personal goods or services via the Council's Internet service you are responsible for ensuring that the information you provide shows that the transaction is being entered into by you personally and not on behalf of the Council.

You should ensure that personal goods and services purchased are not delivered to Council property. Rather, they should be delivered to your home or other personal address.

If you are in any doubt about how you may make personal use of the Council's Internet Service you are advised not to do so.

All personal usage must be in accordance with this policy. Your computer and any data held on it are the property of Redditch Borough Council and may be accessed at any time by the Council to ensure compliance with all its statutory, regulatory and internal policy requirements.

6.4 Internet Account Management, Security and Monitoring

The provision of Internet access is owned by the Council and all access is recorded, logged and interrogated for the purposes of:

- Monitoring total usage to ensure business use is not impacted by lack of capacity.
- The filtering system monitors and records all access for reports that are produced for line managers and auditors.

6.5 Things You Must Not Do

Access to the following categories of websites is currently blocked using a URL filtering system :

- Adult
- Advertisements
- Alcohol and Tobacco
- Cheating and Plagiarism
