

Council 2nd October 2017

Questions from members of the Public

1) From Mr C MacMillan:

I am aware that the Council, led by the Labour Party and under his stewardship, has a Homeless Strategy. I know that this is an issue of great concern to all sides of this Council.

I would ask that the Leader explain why his strategy is not working and why we have people, often in great need, camping on the ring road? What precisely has he done so far to help these people and how he is going to invigorate his efforts going forward such that these, and other homeless people in the Borough, are helped?

2) From Ms J Beecham

Does Redditch Borough Council use the sanctions that are available to them in the form of fines for breaches of Planning development regulations such as those currently being suffered by Webheath residents by developers Taylor Wimpey?
