To whom it may concern

I am writing to support Pitcheroak golf club venue regarding an extension of their trading hours.

As I understand the extension will only be for an extra 30 minutes from 23 30 hrs to 24 00 hrs, i have no objections to this whatsoever.

Mr Hawkes (club general manager ) has run this venue according to the trading conditions that are expected, as I am aware they have had no asbo orders since I have lived in Plymouth road.

The golf course itself is a much needed resource for the community around Redditch, and of course the clubhouse has always been a feature for birthday parties ect over the years.

Finally contrary to popular belief, the club will NOT be a live music venue .

This confirms my full support regarding the above mentioned application.

Good Afternoon

I am writing to you concerning the variation of the Licensing for the Golf Club, I have put this email together on behalf of 7 different households along Plymouth Road, we have been approached by a

resident to rally support for an objection to these changes but we all feel that the Club and the amenities, services and entertainment that has been provided is essential to this community, We have listened to the objections put forward and disagree to these, The Golf Club is a hub for the residents and has been essential in bringing the residents and wider community together, As residents close in proximity to the club, we have never had cause to complain about any events that have been hosted at the club, We received more of a noise nuisance from people walking to and from the town centre of an evening.

We have all at some point attended an event at the Golf Club and all had the same experience of music/bands being stopped on time and also been reminded that we need to be respectful to the neighbours even though we are the neighbours.

I understand some residents have concerns but I myself have become concerned of the way in which it was put to me what would be happening and I was led to believe by certain residents that the changes would be more drastic and that it would literally be a live music venue, I managed to speak directly to Mr Hawkes from the Golf club who was very honest about the changes and what the hopes for the club are and we as a collective are in full support of this and hopeful of what this may bring to our community

If you wish to discuss this further with any of us, then please do not hesitate to contact me and i will be able to provide contact details for all of the households I have referred to,

Kind Regards

Annette Heel
