## BENEFITS IMPROVEMENT PLAN – QUARTERLY MONITORING JANUARY TO MARCH 2010

Relevant Portfolio Holder	Councillor Michael Braley
Relevant Head of Service	Head of Finance and Resources
Non-Key Decision	

# 1. SUMMARY OF PROPOSALS

To advise Members on the performance of the Benefits Service during the third quarter and to provide an update on progress against the Benefits Service Improvement Plan.

## 2. <u>RECOMMENDATIONS</u>

## The Committee is asked to RESOLVE that

subject to any comments, the report be noted,

# 3. BACKGROUND

- 3.1 The Benefits Service Improvement Plan was developed in response to the Audit Commission Inspection in February 2009.
- 3.2 Work is progressing towards the aims of the improvement plan. The Performance Development Team (PDT) from the Department for Work and Pensions has been working with the Benefits Service to help implement the recommendations from the Audit Commission inspection. In particular they are looking at helping to improve overpayment recovery, devise a Take Up Strategy, improve access to the service and performance management.

## 4. KEY ISSUES

#### Claims Performance

4.1 There are two national Indicators for the Benefits Service.

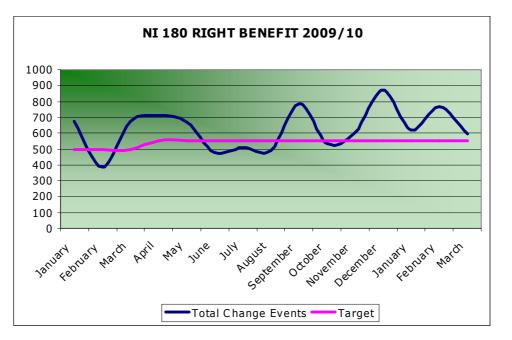

NI 180 Right Benefit – this measures the number of change events identified and actioned – a target of identifying 550 changes each month was set and the average for the quarter was 660 per month. Over the year a total of 7642 changes were identified. This being made up of 2807 reductions 2693 cancellations and 2142 increases, with an average per month of 637.

The DWP have grouped together authorities with a similar expected

number of changes and Redditch identified 1.84 changes per customer compared to the group average of 1.58 changes per customer.

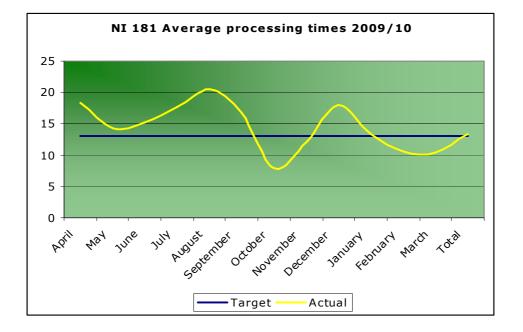

4.2 NI 181 – this is a measure of the average number of days taken to process new claims and changes in circumstances. An average of 13 days was set as a target and the average for the year was 13 days. The final quarter performance was 11 days, the table below compares local performance against national data. The national data is based on monthly DWP data extractions – unfortunately Redditch data was not included in the national figures and the data has been collated directly from the Benefit processing system.

#### 2009/10 Average processing times

	National	RBC Quarter	RBC
	Average*	4	YTD
Combined	14	11	13
New claims	25	25	29
Change Events	11	9	10

National average as at end of Quarter 2 2009/10

Case-load and Claims received

4.3 The number of claims received increased in the quarter with 1194 new claim forms being received compared with 1017 in the previous quarter. The caseload also increased to 8117 up from 7831 at the end of the previous quarter. There were further increases in the numbers of new claims and change events processed. A total of 7978 change events were worked on in the quarter compared to 5913 in the previous quarter. 1676 new claims were decided compared to 1345 previously.

# **EXECUTIVE COMMITTEE**

4.4 Local Indicators

The Benefits Services also monitors a range of other performance data including the percentage of claims decided within 14 days. The current year target is to decide 85% of claims within 14 days. Between January and March 2010 93% of new claims were dealt with within 14 days of being able to make a decision.

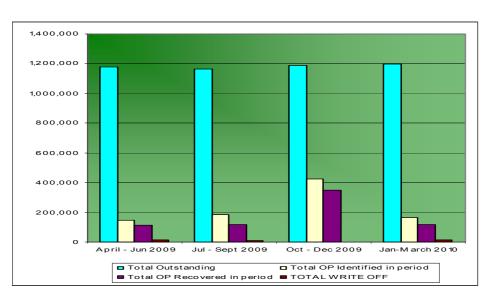

4.5 Overpayment recovery

Outstanding overpayments at the beginning of the quarter increased to £1,197,616 but in the context of increasing claim numbers this may not be unexpected. New dedicated recovery post recruited and receiving training.

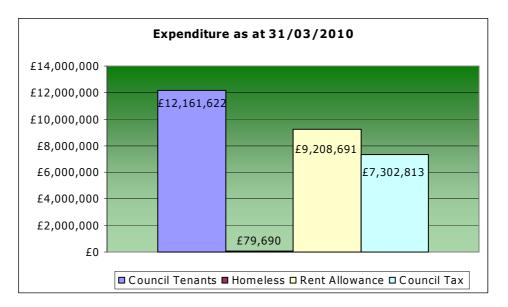

New overpayments totalling £166,215 were identified and £116,139 was recovered in the quarter.

# **EXECUTIVE COMMITTEE**

#### 16th June 2010

4.6 Full subsidy should be payable on Local Authority Error overpayments as they remained below threshold. Only £85,052 or 0.31% of qualifying expenditure has been treated as Local Authority error. Total expenditure on Benefit payments increased by about £1.5 million compared to the previous year ending at £28,752,816.

Local Authorities receive a grant to cover all overpayments attributed to Local Authority delay or error as long as the total does not exceed 0.48% of qualifying expenditure (qualifying expenditure in this case being expenditure which qualifies for 100% subsidy).

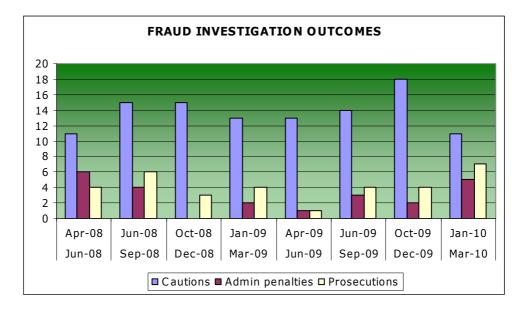

#### 4.7 Counter Fraud work

 $D: moderngov/data\published\lintranet\C00000113\M00000482\Al00004378\litem7BenefitsImprovementPlanQuarterlyMonitoringJanuaryMarch20100.DOC/Ims/12052010$ 

# **EXECUTIVE COMMITTEE**

16th June 2010

In the quarter 295 cases where fraud was suspected were referred to the Investigations team, and 11 Cautions and 5 Administration penalties were issued. 7 cases were identified as being suitable for prosecution.

#### Improvement plan

- 4.8 Work is progressing towards the aims of the improvement plan. The Performance Development Team (PDT) from the Department of Work and Pensions worked with the Benefits Service to help implement the recommendations from the Audit Commission inspection. In particular the main areas to be improved are the management and collection of overpaid Housing Benefit, adopting a Take-Up strategy, accessibility of the service and setting challenging service standards and performance targets.
- 4.9 The overpayment recovery process has been mapped and a new Overpayments Officer appointed.
- 4.10 A Take-Up strategy has been created to help local people maximise their income. Consultation has taken place with stakeholders such as the Job Centre Plus, Age Concern and Citizens Advice Bureau. Various activities and events are scheduled to promote take-up.
- 4.11 Service users have been asked their views on aspects of service provision and the service is working closer with voluntary and community organisations.
