

Levelling U Fund 2 Report – Explanatory Note

The report relating to Levelling Up Fund 2 is different from the TIP report in that the money is not secured and this council will have to compete with other councils. The deadline is 6 July 2022, and the bid will be worked on until this deadline to maximise the chances of success. The choice for the council is whether to make a submission and if a submission is to be lodged the nature of the bid.

The deadlines are set by central government and are challenging.
