service provision and improve the customer experience when having contact with the Council.

- 3.5 Quarterly reporting is intended to ensure Members are aware of progress and updated in respect of customer feedback, especially complaints made in respect of service provision.
- 3.6 Good customer service improves value for money by reducing failure demand. Improvements to the way we handle complaints has resulted in less officer time spent chasing responses and re-investigating.

Customer / Equalities and Diversity Implications

- 3.7 It is important to monitor aspects of customer service to ensure that we are improving and developing. Customers need to know that we respond properly to complaints, act on the issues raised and report on them. Customer feedback is a valuable tool for understanding what is going well, and what not so well, within the organisation. These form vital information for all transformation reviews.
- 3.8 Measures provide us with useful information about what is happening in our organisation and help us to understand where changes may impact.
- 3.9 Although led by the Head of Customer Services, the customer experience strategy applies to all services and all customers and progress against the action plan involves officers from many services working together to the benefit of customers.

4. RISK MANAGEMENT

- 4.1 It is important to analyse the Council's complaints or compliments and for the Council to identify whether there are any trends which need to be addressed and any lessons learned in order to improve the Council performance and service to the Customer. The Customer Service Centre data is important for monitoring service delivery and identifying areas for change or improvement.
- 4.2 Failure to monitor actions in respect of the customer experience strategy could result in failure to progress.
